## **SCHEDULE 4 TO CLAUSE 43.04 DEVELOPMENT PLAN OVERLAY**

Shown on the planning scheme map as **DPO4**.

### **INDUSTRIAL 1 ZONE**

#### **1.0**

#### **Objectives**

--/--/---  
Proposed C51mans

- Outline the form and conditions of future use and development in the Industrial 1 Zone.
- Establish broad directions for future land use, development, subdivision and servicing of an area.

#### **2.0**

#### **Requirement before a permit is granted**

--/--/---  
Proposed C51mans

Before any new use, development or subdivision commences, a development plan must be prepared and approved by the responsible authority.

A permit may be granted before a development plan has been prepared for:

- Subdivision of the land into two allotments or re-subdivision of existing allotments.
- A single building on a lot.
- Any buildings and works associated with any existing use or development of the land.

Before any planning permit is granted for any subdivision, use or development of land that the Development Plan Overlay 4 applies to, the responsible authority must consider the:

- Consistency of any proposal with any approved development plan.
- Design and provision of roads and road infrastructure in accordance with the *Infrastructure Design Manual*, in conjunction with VicRoads on declared arterial roads.
- Provision of servicing, including water, sewerage, drainage and stormwater, electricity and telecommunications to meet the standards of the relevant service authority.
- Need for a land or monetary contribution for open space in accordance with the *Subdivision Act 1988*

#### **3.0**

#### **Conditions and requirements for permits**

--/--/---  
Proposed C51mans

A permit for subdivision, use or development must include conditions, as appropriate, to give effect to the provisions and requirements of an approved development plan and any specialist report prepared to support the development plan.

A permit for subdivision, use or development may include a condition that requires the owner of the land to enter into an agreement with the responsible authority pursuant to Section 173 of the *Planning and Environment Act 1987* to address any matter relevant to the proposal, including contributions towards infrastructure and environmental management.

#### **4.0**

#### **Requirements for development plan**

--/--/---  
Proposed C51mans

Any development plan for this land must outline and assess:

- Site assessment and response, including natural features, slope and orientation, drainage lines, native vegetation, heritage and archaeological significance, viewlines and adjoining land.
- Proposed subdivision layout and density, indicating internal roads, external road linkages and impacts, pedestrian linkages and if appropriate, lot layout.
- All servicing, including water, sewerage, drainage and stormwater, electricity and telecommunication to meet the standards of the relevant service authority.
- Bushfire risk and bushfire protection measures for the site and area, as appropriate.

## MANSFIELD PLANNING SCHEME

- Existing and future open space, including linkages to and between areas of open space.
- Proposed measures to address native vegetation, landscaping and streetscape treatment.
- The stages, if any, in which the land is to be subdivided and developed.
- Potential impact of the proposed development plan on neighbouring and nearby land.
- Compliance with the Mansfield Planning Scheme, including relevant planning strategies, the Industrial 1 Zone and this overlay schedule.
- Compliance with any adopted structure plan, urban design framework or strategy relevant to the area.

In the preparation of any development plan, consideration must be given, in conjunction with VicRoads, to the need for a Transport Impact Assessment Report when it is considered likely that there will be an effect on any declared arterial road. Any required Transport Impact Assessment Report will have regard to VicRoads access management policies and determine the extent of mitigating works required on declared arterial roads in consultation with VicRoads.

An approved development plan may be amended to the satisfaction of the responsible authority.
